## 1. The 4 Buckets Diagnostic

Where does your organization currently stand? Check the box that best describes your primary focus today.

### Discovery

"Look what this tool can do!" Focus is on novelty and individual experimentation.

We are here

### Compliance

"We need to control this." Focus is on policies, restrictions, and risk mitigation.

We are here

### Implementation

"How do we roll this out?" Focus is on buying tools and training on specific software.

We are here

### Strategy

"How does this change us?" Focus is on workforce capability and business transformation.

## 2. The 3-P Model for Transformation

To move from Implementation to Strategy, shift your investment from Platforms to People and Process.

### PEOPLE

Invest in adaptability and critical thinking, not just prompt engineering.

### PROCESS

Redesign workflows for AI augmentation, don't just pave the cow path.

### PLATFORM

Treat tools as temporary. They belong on the clearance rack.

### The "We Need to Talk" Framework

Don't wait for permission. Schedule a 15-minute strategic conversation with your leadership team tomorrow.

#### Ask these 3 questions:

1. Are we buying tools or building capability?
2. Is our goal efficiency (faster) or effectiveness (better)?
3. Who are our "AI Scouts" identifying the next wave?
